Professional Experience

- | | | |
|--------------------------|--|---|
| 12/2024 - current | Founder and Data Scientist
DataVision – Data Science and Machine Learning Solutions <ul style="list-style-type: none">■ <i>Development of Data Science and automation solutions to optimize processes and support decision-making.</i>■ <i>Design and implementation of Machine Learning models and end-to-end analytical pipelines.</i>■ <i>Exploratory use of Large Language Models (LLMs) for task automation and analysis of unstructured data.</i>■ <i>Technical training in Data Science for both technical and business teams.</i> |  |
| 02/2024 - 11/2024 | Data Scientist
Banco Galicia <ul style="list-style-type: none">■ <i>Technical owner of business rules and decision logic, leading their definition and maintenance.</i>■ <i>Advanced fraud analysis focused on chargeback detection.</i>■ <i>Design and implementation of a segmentation model integrated into production processes on Azure.</i> |  |
| 08/2023 - 01/2024 | Data Scientist
AB InBev <ul style="list-style-type: none">■ <i>Technical leadership in the design and development of the analytical solution.</i>■ <i>Design and development of an end-to-end analytical pipeline for communication automation.</i>■ <i>Development of a customer segmentation model.</i> |  |
| 04/2021 - 07/2023 | Data Scientist
Mercado Libre <ul style="list-style-type: none">■ <i>Leadership of fraud prevention projects.</i>■ <i>Design and development of Machine Learning solutions in Python.</i>■ <i>Presentation of progress, results, and business impact to internal stakeholders.</i>■ <i>Development, validation, and monitoring of Machine Learning models in production using AWS SageMaker.</i> |  |
| 08/2019 - 03/2021 | Data Scientist
Ixpandit - Fintech Factory <ul style="list-style-type: none">■ <i>Design, development, and end-to-end implementation of credit risk models.</i>■ <i>Construction of data pipelines and production model validation using Docker.</i>■ <i>Performance monitoring and periodic model adjustments in production.</i> |  |
| 09/2018 - 07/2019 | Management Control Analyst
Inworx - Software Platforms and IT Solutions <ul style="list-style-type: none">■ <i>Project tracking and performance evaluation.</i>■ <i>Analytical support for project reviews.</i> |  |
| 10/2015 - 08/2018 | Risk Management Analyst
QBE - Insurance <ul style="list-style-type: none">■ <i>Assessment and quantification of internal and external risks.</i>■ <i>Monitoring of risk mitigation plans.</i>■ <i>Risk management training for management-level stakeholders.</i> |  |
| 03/2013 - 09/2015 | Administrator and accountant analyst
Rosa Bán Plásticos - Plastic Manufacturing |  |

Tools, Technologies and Programming Languages

Programming Languages

- Python, R, SQL, PySpark
- JavaScript
- HTML, CSS

Cloud Platforms

- Microsoft Azure
- Google Cloud Platform (GCP)
- Amazon Web Services (AWS)

Databases and Data Processing

- SQL, NoSQL
- ETL, Data Pipelines
- BigQuery, Cloud DW

Data Analysis and Visualization

- Power BI, Tableau
- Microsoft Excel
- Miro

Development and MLOps Tools

- Jupyter, PyCharm, VS Code
- CI/CD for ML pipelines
- Git/GitHub, Docker, Postman

Project Management and Methodologies

- Jira, Trello
 - Scrum, Kanban
 - CRISP-DM, TDSP
-

Developed Models

Supervised Learning Models

- Linear and Logistic Regression
- Decision Trees
- Random Forests
- XGBoost
- K-Nearest Neighbors (K-NN)
- Support Vector Machines (SVM)

Language and Generative Models

- Large Language Models (LLM)
- Fine-tuning and adaptation to specific use cases
- Embeddings and semantic search
- NLP pipelines

Deep Learning Models

- Convolutional Neural Networks (CNN)
- Recurrent Neural Networks (RNN)

Clustering Models

- K-Means
- DBSCAN (Density-Based Spatial Clustering of Applications with Noise)
- Hierarchical Clustering

Dimensionality Reduction Models

- PCA (Principal Component Analysis)
- Autoencoders

Optimization Models

- Stochastic Gradient Descent (SGD)
- Bayesian Optimization

Time Series Models

- ARIMA (AutoRegressive Integrated Moving Average)
- SARIMA (Seasonal ARIMA)

Image Similarity Models

- CNN-based Image Similarity Models
 - Generative Adversarial Networks (GANs) for image similarity
 - SIFT and SURF (Feature Matching Models)
-

Academic Background

Academic Education

06/2023 Actuarial Sciences
Faculty of Economic Sciences, University of Buenos Aires (UBA)

Additional Training

Leadership Skills Development
Git and GitHub for Collaborative Development
Leadership, Project Planning, and Stakeholder Management

Languages

English – Upper-Intermediate (B2)
First Certificate in English

Community and Social Projects

Prendiendo Empatía – Social Aid Campaigns

- *Leadership and management of social initiatives.*
- *Resource coordination and operational execution.*

Ciclo de arte Mestiza – Visual Arts Exhibitions, Theatre, and Music Events

- *Financial management and commercial agreements.*
